GENERAL INDEX

TO THE

REPORTS OF THE SOCIETY FOR THE STUDY OF DISEASE IN CHILDREN

FOR

VOLS. I–VIII, 1900–1908.

ABBOTT (F. C.), a case of total necrosis of the lower jaw; result . . . . . i, 68
„ discussion on a case of hygroma of the neck . . i, 35
„ — on congenital cicatrices: a problem in ante-natal pathology . . . . . i, 64
„ — on oblique fracture into the elbow-joint with complete dislocation inwards and rotation of the ulna in a boy, aged 10 years . . . . . i, 34
„ — on tuberculous peritonitis . . . iii, 133

ABDOMEN, cicatricial constriction of, attributed to compression by the umbilical cord (C. O. Hawthorne) . iii, 29
„ muscles of: infantile paralysis of abdominal muscles, both legs, and one arm (George Carpenter) . . vi, 53
„ — involvement of, in infantile paralysis (A. Edmunds) . v, 1, 15
Discussion, G. A. Sutherland, 18.
„ — in acute anterior poliomyelitis (F. Taylor) . . iii, 247
Discussion, T. Fisher, A. Tubby, 247.
„ tuberculosis of . . . . iii, 76, 105, 113
„ tumour in (J. Porter Parkinson) . . . viii, 358
Discussion, H. Lett, M. Burgess, W. Ewart, J. P. Parkinson (reply), 359.

ABDOMINAL case for diagnosis (A. Morison) . . iv, 56, 58
Discussion, E. Cautley, L. Guthrie, G. A. Sutherland, 57.
„ disease in children, bimanual examination in the diagnosis of (J. Carmichael) . . . . . i, 217
„ — rectal and bimanual examination in (George Carpenter) iii, 77, 79, 84, 87
„ muscles, infantile paralysis of (George Carpenter) . vi, 53
„ section in tuberculous peritonitis (George Carpenter) . iii, 126

ABNORMALITIES, see *Congenital abnormalities, Deformities*, etc.

Abram (H.), on delayed chloroform poisoning . . iv, 219

ABSCESS, cerebral, case exhibited after operation (P. Turner) vii, 109
„ subdural, secondary to otitis media (C. T. Dent) . i, 122
Discussion, A. H. Tubby, F. Jaffrey, 122.

ABSCESSES, multiple, in child (D. C. L. Fitzwilliams) . vii, 180
„ — in lung from child, aged 3 years, with pyopneumothorax (George Carpenter) . . . . vi, 255

ACETONURIA in delayed chloroform poisoning . . iv, 266

ACHONDROPLASIA . . . . . ii, 28
„ case of (H. Balme and A. D. Reid) . . . iv, 283
Discussion, G. Pernet, 283.
„ — (K. R. Hay) . . . . . vi, 197
„ — (S. J. Ross) . . . . . vii, 232
„ — (J. Taylor) . . . . . iii, 162
Discussion, E. Cautley, T. Smith, J. Taylor (reply), 162.
„ cases of (R. Howard) . . . . viii, 360
„ well-marked case in girl exhibited (W. J. Turrell) . vi, 290

ACNE scrophulosorum, case of (F. J. Poynton) . . vi, 209

ACROMION process, sarcoma in connection with (H. J. Curtis) iii, 185

ACTINOMYCOSIS, probably of the pleura . . . iii, 259

Adams (P. H.), a case of lamellar cataract . . vi, 288

Adamson (H. G.) (introduced), inherited syphilis; surface anatomy of the napkin region; simple erythemas of the napkin region (dermites simplex infantiles of Jacquet); seborrhœic dermatitis; streptococcic impetigo about the napkin region; the eruptions of congenital syphilis . viii, 93

ADDISON'S disease, case of (F. J. Poynton) . . vii, 162

ADENITIS, syphilitic . . . . . viii, 132

ADENOIDS, local treatment of (J. P. Parkinson) . . ii, 134
Discussion, G. A. Sutherland, 136.
„ and rickets . . . , . iv, 17, 19

ADIPOSITY, see *Obesity*.

ADRENALIN: intra-serous injections of adrenalin without paracentesis in treatment of relapse of effusion in case of left pleurisy; recovery (W. Ewart) . . . vi, 136
„ solution in recurrent cardiac dilatation (C. W. Chapman) iv, 150

ADULTS: incidence of disease in children and adults illustrating defensive arrangements of human body (Wightman Lecture, 1908) (Sir W. Watson Cheyne, Bart., C.B.) . viii, 361

AGE INCIDENCE in tuberculous peritonitis . iii, 77, 79, 104

AIR, open, in tuberculosis . . . . iii, 271

Ajello on delayed chloroform poisoning . . . iv, 220

ALBUMINURIA associated with œdema, fatal, in an infant aged 8 months (George Carpenter) . . . iv, 132
Discussion, F. P. Weber, 134.
„ in diphtheria . . . . . iii, 236
„ paroxysmal, and hæmaturia (D'A. Power) . . i, 158
Discussion, J. Blumfeld, George Carpenter, G. A. Sutherland, 158.

ALCOHOL and cirrhosis of the liver (C. J. Macalister) i, 202, 206; ii, 122

ALCOHOLISM caused by granular kidney . . . i, 86
ALEXIA . . . . . iv, 170
ALIMENTARY canal in chloroform poisoning . . iv, 248
„ — and tubercle bacillus . . . . iii, 63
ALL-FOURS exerciser in after-treatment of empyema in boy, aged 3 years (W. Ewart) . . . . viii, 303
ALLENBURY milk, No. 1, in infantile scurvy . . i, 149
Alliott (A. J.), sudden and unexpected death in children . v, 117
ALLORRHYTHMIA (persistent) (A. Morison) . . vii, 22
ALOPECIA, a case of generalised (G. Pernet) v, 230, 231; viii, 16
Discussion, George Carpenter, S. Stephenson, H. Skelding, E. Clarke, 231.
„ areata neurotica (symmetrical) accompanied by bullous eruption on the face (W. G. Nash) . . . vi, 177
„ universalis, case of (O. Grünbaum) . . . v, 180
AMAUROSIS, acute, following infantile convulsions (H. Ashby and S. Stephenson) . . . . iii, 197, 208
Discussion, George Carpenter, R. Hutchison, A. E. Sansom, 206.
„ fleeting, in symptoms of meningitis (S. Stephenson) . ii, 276
AMAUROTIC idiocy, see *Idiocy*.
AMBLYOPIA, little-known type of, in children (S. Stephenson) viii, 428
Ambrosius on delayed chloroform poisoning . . iv, 217
AMENTIA, congenital deformities of so-called Mongolian type of (G. A. Sutherland) . . . . vii, 100
AMPUTATIONS, intra-uterine . . . . iv, 352
ANÆMIA, enlarged liver and spleen in . . . iii, 257
„ infantum pseudo-leukæmia . . . . iii, 13
„ pernicious, diffuse pseudo-lymphoma terminating in (W. C. Chaffey) . . . . . ii, 6
Discussion, D. B. Lees, 10.
„ pseudo-leukæmica infantum (W. Carr) . . . i, 154
Discussion, E. Cautley, W. C. Chaffey, Susmann, 154.
„ — — (J. P. Parkinson) . . . . vii, 19
„ splenic . . . . . iii, 8, 308
„ — Banti's variety, case of (A. Foxwell) . . viii, 397
„ splenic (?) (T. R. Whipham) . . . . vi, 4
„ two cases of (E. P. Baumann) . . . . iv, 184
Discussion, A. E. Jones, 186.
ANÆSTHESIA by chloroform, effects of . . iv, 208, 268
„ recurrent pressure-sores in spina bifida cases (F. P. Weber) iv, 123
Discussion, D. Drew, H. Evans, 125.
ANÆSTHETIC, "ethyl chloride" as a general (J. H. Chaldecott) . . . . . iv, 8
Discussion, S. Stephenson, A. Thorne, 13.
ANÆSTHETICS as a cause of sudden death in children (J. Blumfeld) . . . . . v, 110
„ deaths under . . . . . v, 130, 132
ANCESTRY, "tyranny" of (Wightman lecture) . . iv, 333
ANENCEPHALIC fœtus (R. Howard) . . . viii, 360
ANEURYSM, infective endocarditis, cerebral hæmorrhage, thrombosis (E. Cautley) . . . . vii, 152

ANGIOMA, capillary, of neck (W. M. Burgess) . . iii, 1
Discussion, A. Carless, C. W. Chapman, W. Edmunds, F. Jaffrey, 2.
„ diffuse, of liver (J. E. H. Sawyer) . . . vi, 19
„ of parotid gland (?), angeio-sarcoma (H. S. Clogg) . vi, 250
„ of right auricle and meatus (P. Macleod Yearsley . viii, 241

ANGIO-SARCOMA, secondary, of the lung in a child aged 3 years (W. A. Wills and D. Drew) . . . iv, 120
Discussion, P. Parkinson, 123.

ANIMALS, tuberculosis in . . . . . iii, 62

ANIRIDIA, congenital, case of (J. J. Evans) . . viii, 402

ANKYLOSIS of both knee-joints in case of chronic rheumatoid disease (F. Parkes Weber) . . . . viii, 280

ANOPHTHALMOS . . . . . iv, 183

ANOREXIA nervosa, case of . . . . iii, 275

ANUS, artificial, for congenital dilatation of the colon . ii, 130
„ — following operation for radical cure of hernia (D'A. Power) . . . . . i, 159
„ — operation for (A. H. Tubby and R. C. Lucas) . i, 2, 3
„ imperforate; recto-vaginal fistula; formation of new anus (A. H. Tubby) . . . . . i, 22
Discussion, R. C. Lucas, D'A. Power, H. B. Robinson, 23.

ANTISEPTICS, toxic effects of . . . . iv, 239

AORTA, case of disease of (H. Gervis) . . . ii, 141
Discussion, A. E. Sansom, A. Morison, T. Fisher, 142.
„ coarctation of syphilitic (George Carpenter) . . viii, 158
„ congenital stenosis of (T. Fisher) . . . ii, 16
Discussion, D. B. Lees, A. E. Sansom, W. G. Nash, 17.
„ disease of (L. Guthrie) . . . . . v, 144
Discussion, E. Cautley, W. Ewart, A. Morison, G. A. Sutherland, 145.
„ endocarditis of pulmonary valve communicating with (E. Hobhouse) . . . . . viii, 337
„ regurgitation in, case in a boy, aged 4 years (J. Porter Parkinson) . . . . . viii, 332
Discussion, E. Hobhouse, E. Cautley, 332.
„ stenosis of (E. Cautley) . . . . . i, 132
„ — and mitral disease (A. Morison and F. J. Poynton) v, 148, 226, 229
Discussion, W. Ewart, T. Fisher, F. J. Poynton, G. A. Sutherland, 149, 228.

AORTIC murmur, diastolic, temporary disappearance (?) adherent pericardium (E. Cautley) . . . vii, 112
„ regurgitation, three cases (J. P. Parkinson) . . vii, 117
„ stenosis in a girl, aged 11 years (L. Guthrie) . . iv, 67
Discussion, E. Cautley, T. Fisher, R. Hutchison, A. Morison, A. E. Sansom, G. A. Sutherland, 68.
„ valve implicated in case of infective endocarditis (George Carpenter) . . . . . viii, 216
„ valves, verrucose endocarditis of (E. Cautley) . . v, 213, 217
Discussion, C. W. Chapman, W. Ewart, 217.
„ and mitral valves, stenoses of (O. K. Williamson) . viii, 355
Discussion, J. P. Parkinson, T. R. Whipham, 356.

APHASIA and hemiplegia in an epileptic, aged 4 years (E. I. Spriggs and F. W. Higgs) . . . . . vii, 33

APOPLEXY, renal, bilateral (E. Cautley) . . . viii, 337
Discussion, 338.
APPENDICITIS, acute, early diagnosis and treatment of, in children (Wightman Lecture) (A. Broca) . . vi, 262
„ in children, points in the diagnosis and treatment of (H. A. Whitelocke) . . . . v, 200, 210
Discussion, C. W. Chapman, R. C. Dun, P. Lewis, R. C. Lucas, L. Mummery, 208.
„ in a hernial sac, report of two cases (H. S. Clogg) . v, 297, 302
Discussion, C. W. Gwynne, R. C. Lucas, 301.
APPENDIX vermiformis, disease of . . . iv, 271
APPETITE, perverted . . . . . v, 264
ARM, athetosis of, in case of infantile hemiplegia (F. W. Higgs and P. Turner) . . . . . viii, 302
„ congenital tumour of, probably lipoma (W. M. Burgess) . vi, 15
„ infantile paralysis of, abdominal muscles, both legs and one arm (George Carpenter) . . . vi, 53
„ left, hypertrophy of one arm and opposite leg (W. Jordan) viii, 422
„ right upper, atrophic paralysis of, probably anterior poliomyelitis (E. F. Buzzard) . . . . vi, 51
„ right, Erb's paralysis of . . . . vii, 197
„ round- and spindle-cell sarcoma of muscles of (D. Drew) . iv, 35
„ see also *Monoplegia, brachial*, and *Paralysis, spastic.*
Armour (D. J.), case of hypospadias . . . v, 150
„ discussion on cerebral tumour . . . vii, 146
„ — on congenital hydronephrosis . . . vii, 147
„ — on hypertrophic stenosis of the pylorus . . iii, 6
„ — on injuries sustained at birth in infant . . vii, 143
„ — on sarcoma of kidney . . . . vii, 150
„ — on Volkmann's contracture . . . . v, 142
„ gastrotomy for removal of a portion of a coin-catcher from lower end of œsophagus of a child, aged 5 years . iv, 116
ARSENIC, neuritis caused by (D. B. Lees) . . ii, 3
Discussion, C. O. Hawthorne, W. C. Chaffey, 4.
„ in treatment of chorea . . . . ii, 4
„ and tuberculosis . . . . . iii, 119
ARTERY, cortical, monoplegia presumably due to embolism of (F. W. Higgs) . . . . . vii, 190
„ hyaloid, and persistent capsulo-pupillary membrane, with atypical development of the vitreous (S. Stephenson) . viii, 253
„ of retina (central), obstruction of (S. Stephenson) . vi, 46
ARTHRITIS, case of, accompanying ophthalmia neonatorum (C. O. Hawthorne) . . . . . ii, 239
Discussion, C. Lucas, S. Stephenson, 243.
„ chronic, case of (F. J. Poynton) . . . v, 165
Discussion, E. Hobhouse, F. P. Weber, 166.
„ — with enlargement of lymphatic glands and spleen (N. C. Penrose) . . . . . viii, 419
„ of hip-joint, acute, operation; recovery, with perfect movement in joint (H. Lett) . . . . viii, 59
Discussion, E. Cautley, 60.
„ multiple (P. Turner) . . . . . viii, 260
Discussion, H. S. Clogg, J. P. Parkinson, T. R. Whipham, George Carpenter, F. J. Poynton, F. Parkes Weber, E. Cautley, 260.

ARTHRITIS (*continued*)—
„ multiple, (?) gonorrhœal in nature (H. B. Robinson) . i, 60
Discussion, E. Cautley, C. W. Chapman, A. E. Sansom, 62.
„ osteo-, in a boy, aged 11 years (A. E. Sansom) . . i, 135
„ pneumococcic, in an infant (A. H. Tubby) . . iii, 210
Discussion, L. Mummery, 211.
„ rheumatoid, nodules in . . . . ii, 6
„ subacute (F. W. Higgs) . . . . vii, 196
„ syphilitic, cases of (A. Edmunds and G. A. Sutherland) . v, 170
Discussion, E. Hobhouse, F. J. Poynton, 172.
„ see also *Osteo-arthritis*.
ARTHRODESIS in infantile paralysis . . . ii, 90
ASCITES . . . . . iii, 76
„ in a case of cirrhosis of the liver (C. J. Macalister) . i, 200
„ medical treatment of . . . . iii, 120
„ radical treatment of . . . . iii, 121
Ashby (H.), a case of nephritis in a newly born infant . i, 129
„ a case of purulent peritonitis associated with empyema (polyorrhomenitis); recovery (*plate*) . . . ii, 157
„ a cases of so-called fœtal rickets . . . i, 166
„ discussion on brachial monoplegia in a newly-born infant, with early rigidity . . . . . i, 40
„ — on a case of syphilis transmitted to the third generation i, 183
„ — on idioglossia in twin sisters . . . iv, 29
„ syphilitic liver (gummatous) . . . . iii, 25
„ Wightman Lecture: some of the neuroses of early life v, 251
„ and Stephenson (S.), acute amaurosis following infantile convulsions . . . . . iii, 197
ASTHMA, dyspeptic, at the age of seven months (W. Ewart) i, 119
Discussion, E. Cautley, C. W. Chapman, W. C. Chaffey, G. A. Sutherland, A. H. Tubby, 120.
„ spasmodic (D. Stanley) . . . . viii, 418
„ in infancy . . . . . v, 257
ATAXY, cerebellar, congenital, case of (G. A. Sutherland) . iii, 158
Discussion, F. Beach, J. Taylor, 160.
„ cerebral, and imbecility, case of (E. Cautley) . . viii, 240
Discussion, J. P. Parkinson, 241.
„ — type of (J. P. Parkinson) . . . . v, 62
„ (?) congenital cerebellar (G. A. Sutherland) . . vii, 99
ATELECTASIS of lung, both upper lobes (E. Cautley) . vi, 227
ATHEROMA . . . . . iii, 181
ATHETOSIS of arm in case of infantile hemiplegia (F. W. Higgs and P. Turner) . . . . . viii, 302
„ — with hemiplegia in an epileptic aged 4 years (E. I. Spriggs and F. W. Higgs) . . . . vii, 33
„ in a case of mitral disease (F. Taylor) . . . iii, 241
„ cerebral diplegic . . . . . v, 13
„ and left hemiplegia (E. Cautley) . . . i, 124
Discussion, George Carpenter, L. G. Guthrie, A. H. Tubby, G. L. Turnbull, 125.
ATONY and kidney disease . . . . . ii, 104
ATROPHY of liver, acute (B. Rogers) . . . vi, 294
„ — acute yellow (J. P. Parkinson) . . . vi, 229
„ see also *Muscular atrophy*.

AURÆ, see *Automatism.*
AURICLE, right, angeioma of, and of meatus (P. M. Yearsley) viii, 241
AURICLES, supernumerary, in infant (J. P. L. Mummery) . viii, 216
,, see also *Ear*
AUTOMATISM, with olfactory and gustatory auræ (L. Guthrie) iv, 151, 153
Discussion, A. E. Jones, 153.

Babaci on delayed chloroform poisoning . . . iv, 219
BACILLI of diphtheria shown in microscopic section of ulceration round pylorus (A. Leathem) . . . vi, 239
Ballin on delayed chloroform poisoning . . . iv, 229
BALLOONING due to affection of abdominal muscle in case of widespread infantile paralysis (F. Langmead) . . viii, 273
Balme (H.) and Reid (A. D.), case of achondroplasia . iv, 283
Bandler on delayed chloroform poisoning . . iv, 222
BANTI'S variety of splenic anæmia (A. Foxwell) . . viii, 397
Barnes (Frank) (introduced), four cases of congenital dislocation of the hip . . . . . viii, 394
,, treatment of congenital dislocation of the hip . . viii, 467
Discussion, A. H. Tubby, 473.
,, two cases of psathyrosis . . . . viii, 398
Barnes (Stanley) (introduced), case of pontine tumour . viii, 411
,, congenital, ? infantile, hemiplegia . . . viii, 411
,, general hydrocephalus . . . . viii, 410
,, glioma of the cerebellum . . . . viii, 413
,, tubercular "tumour" of cerebellum with terminal meningitis . . . . . viii, 413
,, — — of the pons Varolii . . . . viii, 412
Bare (J.), discussion on pneumococcal peritonitis . i, 218
,, — on the treatment of endocarditis . . . i, 189
,, symptoms and diagnosis of tuberculous peritonitis . iii, 67
Bastianelli on delayed chloroform poisoning . . iv, 214
Batchelor (C.), case of exophthalmic goitre in a child aged 3½ years . . . . . v, 211, 213
BATH, œdema of eyelids occurring after a (T. Fisher) . i, 149
Discussion, George Carpenter, S. Stephenson, G. A. Sutherland, 153.
BATHS in schools . . . . . v, 77
Baumann (E. P.), case of mediastinitis . . . iv, 60
,, discussion on congenital cysts of the lung, associated with dextrocardia . . . . . iv, 100
,, — on specimens from a case of status lymphaticus . iv, 295
,, specimen of early Parrot's nodes from a child aged 2 years iv, 158, 160
,, — of an embryonic cyst of the mesentery . iv, 160, 161
,, — of a laryngeal polypus . . . . iv, 296
,, two cases of anæmia . . . iv, 184, 187
BAZIN'S disease (Erythema induratum), case of (A. D. Heath) . . . . . viii, 386
Beach (F.), a case of von Recklinghausen's disease . . vii, 167
,, cerebral degeneration and fundus changes . . v, 27
,, discussion on after-effects of polyneuritis . . iv, 65

BEACH (F.) (*continued*)—
„ discussion on case of cretinism . . . vii, 103
„ — on a case of imbecility associated with an abnormal degree of subcutaneous fat . . . . i, 66
„ — on a case of infantile general paralysis of the insane . iv, 32
„ — on case of infantilism . . . . vii, 115
„ — on a case of Mongolian imbecility . . . i, 4
„ — on a case of myxœdema in a boy aged 6 years . i, 94
„ — on a case of peroneal type of muscular dystrophy . ii, 167
„ — on a case of Raynaud's disease . . . iii, 165
„ — on a case of trichotillomania . . . v, 29
„ — on congenital cerebellar ataxy . . . iii, 160
„ — on a nerve case of doubtful origin . . . i, 59
„ — imbecility and microcephaly . . . v, 22

BEATTY (R.M.), discussion on case of chloroma in a young child vi, 219, 220

BEBI on delayed chloroform poisoning . . . iv, 219

BECKER on delayed chloroform poisoning . . . iv, 217

BED-WETTING, see *Enuresis*.

BELL'S PALSY with hemiplegic onset (J. P. Parkinson) . v, 60
Discussion, E. Cautley, 61.

BIDWELL (L. A.) discussion on a case of multiple periostitis . iv, 188
„ gonorrhœal salpingitis in a child, aged 6 years; removal of tubes . . . . . iv, 197

BILE-DUCT, common, congenital obliteration of, with cirrhosis of liver (J. Miller) . . . . . viii, 423
„ obliteration of, in case of cirrhosis of liver (J. P. Parkinson) vii, 150

BILHARZIA, case of, in boy (H. Skelding) . . vii, 274

BILIARY cirrhosis associated with splenomegaly (E. C. Williams) . . . . . vi, 180

BIMANUAL examination in abdominal disease (George Carpenter) . . . . iii, 77, 79, 84, 87

BIRTH, injuries sustained at, in infant (S. Rumboll) . vii, 143
„ œdema persisting since, cases (F. J. Poynton) . . viii, 51
„ — — — (G. A. Sutherland) . . . . viii, 52
„ premature, and the pyramidal tracts . . . ii, 111

BLADDER, ectopia of, etc., incomplete descent of testicles (R. C. Dunn) . . . . . iii, 39
„ extroversion of (P. Bush) . . . . iv, 328
„ hypertrophy of, in congenital hydronephrosis, etc. (J. M. Fortescue-Brickdale) . . . . iv, 94
Discussion, T. Walker, 95.
„ pain in, in appendicitis . . . . v, 207
„ see also *Calculus, vesical*.

BLINDNESS, see *Amaurosis* and *Word-blindness*.

BLISTERS in the treatment of endocarditis (R. Caton) . i, 185
Discussion, J. Barr, Carter, H. R. Hutton, C. J. Macalister, A. E. Sansom, 186.
„ in the treatment of acute rheumatism . . . i, 184

BLOOD, examination of, in hæmoglobinuria . . ii, 125
„ — in leukæmia . . . . . iii, 48
„ — in splenic hyperplasia . . . . iii, 9
„ — in splenomegaly . . . . . iii, 308
„ — in trophic œdema. . . . . v, 6

BLOOD-CHANGES in lymphadenitis (T. R. Whipham) . vi, 3

BLOOD-VESSELS, great, syphilitic disease of . . viii, 145
BLUCK (W. Cardy) discussion on infantile paralysis of abdominal muscles, both legs and one arm . . . vi, 55
BLUMFELD (J.), anæsthetics as a cause of sudden death in children . . . . . v, 110
„ discussion on a case of paroxysmal albuminuria . . i, 158
BODY, human, defensive arrangements of, as illustrated by incidence of disease in children and adults (Wightman Lecture, 1908) (Sir W. Watson Cheyne) . . viii, 361
BONE, joint and visceral lesions, with infantilism in case of inherited syphilis (J. Porter Parkinson) . . viii, 255
„ rapid softening of, and acute periostitis . . v, 305
BONES, diseases of, complicating inherited syphilis (A. H. Tubby) viii, 111
„ — — — (George Carpenter) . . . . viii, 118
„ — — — (G. A. Sutherland) . . . . viii, 175
„ fragilitas ossium syphilitica, with multiple fractures, probably congenital (L. G. Guthrie) . . . vi, 61
„ tuberculosis of . . . . . iii, 268
„ see also *Exostosis, Parietal bones*, and *Tumours, osseous.*
BOVINE tuberculosis . . . . . iii, 62
BRAIN, abscess of, case exhibited after operation (B. Turner) vii, 109
„ — recovery . . . . . iii, 259
„ blood-cyst in, causing monoplegia (T. Fisher) . . i, 42
„ case of primary osteoma of (J. W. T. Walker) . . ii, 173
Discussion, W. M. Burgess, T. Fisher, G. A. Sutherland, 189.

HEART (*continued*)—
„ congenital disease of, in Mongolian infant (George Carpenter) . . . . . viii, 278
Discussion, F. P. Weber, T. W. Higgs, George Carpenter (reply), 279.
„ — — showing vegetations on the pulmonary and aortic valves (T. Fisher) . . . . . ii, 155
„ — — two cases (George Carpenter) . . . viii, 228
Discussion, E. Cautley, F. J. Poynton, W. Ewart, C. W. Chapman, George Carpenter (reply), 237.
„ — — ? tricuspid incompetence plus a patent septum ventriculorum (E. Cautley) . . . . i, 133
„ — malformation of . . . . . v, 47
„ — — case (George Carpenter) . . . viii, 341
Discussion, E. Hobhouse, George Carpenter (reply), 341.
„ — — (T. R. Whipham) . . . . vii, 9
„ — — specimen (E. Pritchard) . . . iv, 93
„ — mitral stenosis in a child, aged 15 months (T. Fisher) . ii, 13
„ — morbus cordis (George Carpenter) . . v, 48, 51, 147
„ disease, adherent pericardium and morbus cordis (T. R. Whipham) . . . . . vii, 181
„ — case of (T. R. Whipham) . . . . vii, 198
„ — in children (A. E. Sansom) . . . ii, 247
„ — dextrocardia and morbus cordis (C. O. Hawthorne) . vii, 186
„ — effect of Schott movement in (A. Foxwell) . . viii, 396
„ — facial œdema in . . . . . ii, 3
„ — prognosis of, in children (D. Stanley) . . viii, 444
Discussion, C. W. Chapman, J. P. Parkinson, E. Cautley, 448.
„ — protection of rheumatic children from onset of (C. O. Hawthorne) . . . . . vii, 80
Discussion, W. Ewart, J. S. Mackintosh, J. P. Parkinson, G. Pernet, F. J. Poynton, 84.
„ displacement of (J. P. Parkinson) . . . iii, 213
„ — congenital, caused by pressure from a cystic lung (George Carpenter) . . . . . iv, 96
„ examination of, in febrile affections in children (R. Caton) i, 186
„ failure and sudden death in myocarditis in a girl, aged 7 years (George Carpenter) . . . . . iv, 127
Discussion, C. O. Hawthorne, R. Hutchison, R. C. Lucas, 131, 132.
„ gumma in the wall of, of an infant (J. P. Parkinson) . i, 141
„ hypertrophy and dilatation of, without valvular disease or general adhesion of pericardium (George Carpenter and E. Fisher) . . . . . vi, 163
„ influence of chloroform poisoning on . . iv, 210, 234, 250
„ lesions of, in congenital malformation of the skull (George Carpenter) . . . . . i, 113, 117
„ mitral disease and athetosis (F. Taylor) . . iii, 241
„ monoventricular (E. Cautley) . . . i, 135
„ murmurs of . . . . . iv, 310
„ — in aortic disease . . . . . ii, 141
„ recurrent dilatation of, adrenalin solution in (C. W. Chapman) . . . . . iv, 150
„ rheumatic dilatation of, specimen illustrating (T. Fisher) i, 20
Discussion, George Carpenter, F. Penrose, J. H. Sequeira, W. Ewart, 21.

HEART (*continued*)—
„ rheumatic dilatation of, of great size; recovery from brachial and jugular thrombosis (D. B. Lees) . . ii, 1
Discussion, A. E. Sansom, T. Fisher, F. J. Poynton, 2, 3.
„ syphilis of . . . . . iii, 171
„ thrombus of (J. P. Parkinson) . . . ii, 244
„ tuberculosis of (T. Fisher) . . . . i, 142
„ valvular disease of . . . . . iv, 67
„ see also *Carditis, Mitral disease, Myocarditis,* and *Tricuspid valve.*

HEATH (A. DOUGLAS) (introduced), case of Bazin's disease (erythema induratum) . . . . viii, 386
„ — granuloma pyogenicum . . . viii, 389
„ — lupus . . . . . viii, 391
„ — tuberculosis of the skin . . . . viii, 387
„ congenital syphilis, circinate eruption . . . viii, 392
„ two cases with bromide eruptions . . . viii, 389

HEINTZ on delayed chloroform poisoning . . . iv, 225

HELICAL fistulæ, symmetrical, bilateral, etc. (J. H. Evans) . iv, 114
Discussion, R. C. Lucas, L. Mummery, 115.

HEMI-HYPERTROPHY, case of (George Carpenter and P. L. Mummery) . . . . . vi, 153

HEMIPLEGIA and aphasia caused by encephalitis superior (J. P. Parkinson) . . . . . vii, 178
„ and athetosis (E. Cautley) . . . . i, 124
Discussion, George Carpenter, L. G. Guthrie, A. H. Tubby, G. L. Turnbull, 125.
„ in case of malignant endocarditis, etc. (George Carpenter) ii, 203
„ in chronic interstitial nephritis (L. G. Guthrie) . . i, 73
„ congenital (? infantile) (S. Barnes) . . . viii, 411
„ in epileptic of four years with athetosis of arm (E. I. Spriggs and F. W. Higgs) . . . . vii, 33
„ infantile . . . . . ii, 95
„ — with athetosis of arm (F. W. Higgs and P. Turner) . viii, 302
„ — with almost complete recovery (C. O. Hawthorne) . vi, 149
„ in thrombosis of cerebral veins (T. Fisher) . . i, 52, 54
„ left, in case of depressed fracture of right parietal region (F. V. Milward) . . . . . viii, 404

HEMIPLEGIC spasticity and inco-ordination in a child, aged 5 years (E. Hobhouse) . . . . v, 169
Discussion, F. J. Poynton, F. P. Weber, 170.

HENOCH'S purpura and intussusception (H. Lett) . . viii, 307
Discussion, E. Hobhouse, G. A. Sutherland, D. Fitz-Williams, H. Lett (reply), 319.

HEREDITARY bias and early environment in their relation to diseases of children (Wightman Lecture) (R. C. Lucas) . iv, 330
„ hæmophilia in the male line (E. Pritchard) . . v, 150
„ history in acquired club-foot (D. Drew) . . v, 172
„ œdema . . . . . v, 9

HEREDITY, influence of, in tuberculous meningitis . . ii, 54
„ and tuberculosis . . . . . iii, 56

HERMAPHRODITISM . . . . . ii, 193

HERNIA in children, treatment of (R. Campbell) . . vi, 221

HERNIA (*continued*)—
„ in children, treatment of, by operation for radical cure, analysis of 305 cases (R. Campbell) . . . vi, 221
„ congenital diaphragmatic, two cases (S. Gilford) . v, 38
„ diaphragmatic (E. Cautley) . . . . vi, 71
„ double, of ovary; case exhibited (R. H. A. Whitelocke) . vi, 290
„ — inguinal, in a female child, each sac containing an ovary-like organ (R. H. A. Whitelocke) . . ii, 191
Discussion, G. Carpenter, 194.
„ inguinal, huge, in conjunction with basal meningitis (E. Cautley) . . . . . vii, 118
„ inguino-perinæal, in a case of displacement of both testes in perinæo (R. C. Lucas) . . . . ii, 274
„ radical cure of, complications following (D'A. Power) . i, 159
„ strangulated, literature on . . . . iv, 4
„ — inguinal, in an infant, aged 28 days, operation, recovery (R. C. Lucas) . . . . iv, 1
Discussion, H. Skelding, J. W. T. Walker, J. C. Clarke, 7, 8.
„ umbilical, congenital (J. H. Ray) . . . ii, 40
„ in young children, treatment of (P. L. Mummery) . iv, 138
Discussion, R. C. Lucas, 144.

HERNIAL sac, appendicitis in, report of two cases (H. S. Clogg) . . . . . v, 297, 302
Discussion, C. N. Gwynne, R. C. Lucas, 301.
„ — inguinal, tuberculosis of, specimen (H. S. Clogg) . vi, 249

HERPES, followed by paralysis of trapezius muscle (W. Edmunds) . . . . . iv, 283
„ zoster extending to the finger-tips (George Carpenter) . v, 30

HEWITT (F. W.), discussion on delayed chloroform poisoning iv, 269

HEYWOOD (C.), discussion on tuberculous peritonitis . iii, 133

HIGGS (F. W.), a case of monoplegia presumably due to embolism of a cortical artery . . . . vii, 190
„ case of subacute arthritis . . . . vii, 196
„ discussion on dextrocardia and morbus cordis . . vii, 187
„ — on case of congenital heart disease in a Mongol . viii, 279
„ — Eustace Smith's bruit . . . . viii, 330
„ — on patent ductus arteriosus . . . vii, 188
„ and SPRIGGS (E. I.), a case of cretinism . . vii, 101
„ — — hemiplegia occurring in an epileptic, aged 4 years, with athetosis of the arm . . . . vii, 33
„ and TURNER (P.), infantile hemiplegia with athetosis of arm viii, 302

HIP, dislocation of, unilateral congenital, three cases of (D. Drew) . . . . . v, 57
Discussion, R. Jones, L. McGavin.
„ double congenital dislocation of, undergoing treatment by the Lorenz method (J. H. Firth) . . . iv, 325
Discussion, A. H. Tubby, 326.
„ excision of both, for tuberculous disease (D. Drew) . v, 172
„ unilateral congenital anterior dislocation of (A. H. Tubby) i, 6
Discussion, J. J. Clarke, 8.

HIP-JOINT, arthritis of (acute); operation; recovery, with perfect movement in joint (H. Lett) . . . viii, 59
„ case of deformity of (H. S. Collier) . . . ii, 20
„ — traumatic dislocation of (A. H. Tubby) . . ii, 93
Discussion, R. C. Lucas, A. E. Sansom, 95.

HIP-JOINT (*continued*)—
„ dislocation of, congenital (R. Warren) . . . viii, 57
Discussion, R. Howard, R. Warren (reply), 57.
„ — — four cases (F. Barnes) . . . . viii, 394
„ — — some practical points in Lorenz's method (J. J. Clarke) . . . . . v, 290, 294
„ — — treatment (F. Barnes) . . . . viii, 467
Discussion, A. H. Tubby, 473.
„ thyroid dislocation of, in a child (L. W. Marshall) . ii, 105
„ see also *Coxa vara*.
Hird (Beatson) (introduced), glioma of the retina . . viii, 416

„ — — acute leucocytic pleuro-pneumonia, with extensive fibrinous plugs visible in enlarged lymphatics . . viii, 272
„ — — cerebral tumour . . . . vii, 108
„ — — chronic arthritis . . . . v, 166
„ — — cretinism . . . . . viii, 211
„ — — congenital heart disease in a Mongol . . viii, 279
„ — case for diagnosis . . . . viii, 354
„ — case of hemi-hypertrophy . . . . iv, 148
„ — — hypertrophy affecting the right lower limb . ii, 116
„ — — infantalism . . . . vii, 115
„ — — inherited syphilis with infantilism, bone, joint, and visceral lesions . . . . viii, 257
„ — — intention tremor . . . . viii, 42
„ — — late rickets . . . . . v, 182
„ — — lipomatosis . . . . . vi, 147
„ — — paroxysmal hæmoglobinuria . . . ii, 126
„ — — polio-encephalitis . . . . viii, 215
„ — — precocious development . . . vi, 202
„ — — sarcoma of the left supra-renal body; precocious puberty . . . . . ii, 231
„ — — splenomegalic cirrhosis of liver in boy aged 7 years; report on the microscopic specimens from the case . vii, 141
„ — — syphilitic synovitis . . . . viii, 209
„ — — varicose veins with a cavernous nævus . . ii, 223
„ — congenital hydronephrosis . . . . vii, 147
„ — trophic œdema . . . . . v, 11
„ — diabetes insipidus . . . . . vii, 96
„ — fatal case of œdema, associated with albuminuria in an infant aged eight months . . . . iv, 132
„ — hemiplegic spasticity and inco-ordination in a child aged five years . . . . . v, 170
„ — idioglossia in twin sisters . . . . iv, 28
„ — infantile paralysis with affection of the abdominal muscle and consequent ballooning . . . viii, 275

WEBER (F. Parkes)—*continued.*
„ — juvenile general paralysis . . . . . v, 54
„ — multiple arthritis . . . . viii, 261
„ — œdema persisting since birth . . . viii, 53
„ — von Recklinghausen's disease . . . vii, 169
„ — tropho-neurosis . . . . . vii, 49
„ — jaundice in a child, with chronic enlargement of the spleen . . . . . v, 191
„ — joint changes in a syphilitic child . . . iii, 233

WHIPHAM (T. R.), a case of adherent pericardium and morbus cordis . . . . . vii, 181
„ — bronchiectasis . . . . vii, 45 : viii, 244
Discussion, E. Cautley, T. R. Whipham, 246.
„ — congenital deformities . . . . vii, 5
„ — — heart disease . . . . . viii, 206
Discussion, C. Chapman, T. R. Whipham, 207.
„ — — malformation of the heart . . . vii, 9
„ — lymphadenitis, with enlargement of the spleen and peculiar blood-changes . . . . vi, 3
„ — morbus cordis . . . . . vii, 198
„ — (?) neurosis, (?) encephalitis . . . vii, 172
„ — osteo-arthritis . . . . . vii, 1
„ — splenic anæmia (?) . . . . . vi, 4
„ discussion on a case of aortic and mitral stenosis . viii, 356
„ — — congenital stricture of the œsophagus . . v, 224
„ — — dextrocardia and morbus cordis . . . vii, 187
„ — habit-spasm . . . . . vii, 24
„ — hæmophilia with adhesions in the knee-joint . . viii, 263
„ — hereditary multiple exostoses . . . vii, 195
„ — monoplegia presumably due to embolism of cortical artery . . . . . vii, 191
„ — multiple arthritis . . . . viii, 261
„ — œdema persisting since birth . . . viii, 53
„ — splenomegaly . . . . . vi, 15
„ — subacute arthritis . . . . vii, 196
„ — case of symmetrical deformity of ears . . vii, 185

WHITELOCKE (R. H. A.), discussion on cystic lymphangioma of neck . . . . . ii, 163
„ — intussusception . . . . . vi, 304
„ — tuberculous peritonitis . . . . iii, 134
„ exhibition of case of double hernia of the ovary . . vi, 290
„ notes on a case of double inguinal hernia in a female child, each sac containing an ovary-like organ . . ii, 191
„ some points in the diagnosis and treatment of appendicitis in children . . . . . v, 200, 210

WHOOPING-COUGH, meningeal hæmorrhage in: specimen (F. Langmead) . . . . . vi, 244
„ occurrence of congenital heart murmur during (E. C. Williams) . . . . . vi, 297

WIGHTMAN LECTURE on chronic appendicitis and the early diagnosis and treatment of acute appendicitis in children (A. Broca) . . . . . vi, 262
„ defensive arrangements of the body as illustrated by the incidence of disease in children and adults (Sir W. W. Cheyne, Bart.) . . . . . viii, 361
„ on hereditary bias, etc. (R. C. Lucas) . . . iv, 330
